

Notice of Price Revision

july 1,2025

Dear Business Partners

New Opt Co., Ltd.
Shigeaki Sonoda

Thank you very much for your continued support of our products. Due to difficulties in obtaining materials and rising prices, we are unfortunately in a situation where we have to raise our product prices. Therefore, starting from September 1, 2025, we will be implementing the following price increases. For quotations submitted before September 1, the old prices will apply within the validity period of the quotation. Please be aware that delivery times may be longer than usual. We sincerely apologize for the inconvenience and appreciate your understanding.

★ After the price revision, the PS2 ball mouse that came with the OPVG31 series will be changed to an optical mouse.
